Meet **VISION**—a first-of-its-kind, secure collaboration platform that enables complete lifecycle management of portfolios while tracking demand signals, measuring return on mission effectiveness, and proactively identifying duplicative efforts to accelerate technology transition.

Built by and for change agents, managers, and decision-makers, **VISION** has thousands of defense users with use cases across defense and at every organizational level. Users today are leveraging the platform to:

- Grow portfolios with boots-on-the-ground innovation
- Overhaul and streamline outdated processes
- Empower leaders to make data-backed decisions

⚡ MANAGE EVERYTHING IN ONE PLACE

VISION replaces dozens of legacy tools for holistic portfolio management in a single system. *No more sticky notes. No more disconnected spreadsheets. No more stale SharePoint folders.* Manage what you have. Find what you need. Surface the most effective efforts and scale them with resources and relevant, real-time insights.

KEY CAPABILITIES

- ✓ See, search, and manage everything in your portfolio in one place
- ✓ Unsilos lifecycle data and deduplicate efforts with similarity analytics
- ✓ Maximize resource value with automated matching
- ✓ Communicate progress and impact with mission-aligned metrics
- ✓ Access commercial capabilities for increased transition success
- ✓ Adapt dynamic processes for your organization's unique needs

Innovation on your terms.

We're rapidly growing to power government missions, with multiple contractual vehicle options available. Schedule your discussion today!
